## **IAM/COMAIR AIRLINES – SEPTEMBER 2010 SURVEY RESULTS**

---

As a part of the preparation for negotiations which started this week, the Negotiating Committee and various other Shop Stewards and Shop Committee members helped in the development of a survey. The survey was available for the membership to participate in from mid-June through July 7, 2010. While we had an excellent rate of participation, it was not 100% which is what we need to gather the true feelings of resolve among the membership.

Accompanying this bulletin are the results from the first survey. These results give the Negotiating Committee, and more importantly the Company, a look at what issues you deem important and that must be resolved for you to ratify a fair and equitable agreement at some point in the future. Your participation, especially at or near 100%, sends a clear and unmistakable message to the all parties involved in negotiating the Agreement.

Another survey is being developed that will contain different types of questions generated as a result of last week's announcement. By the time the survey is released, we expect that everyone will have had time to digest the recent news about fleet reductions and possible effects down the road for the IAM membership. Please keep an eye out on the IAM bulletin boards or ask a Shop Steward for details of that follow-up survey.

Start talking about these results with each other and as I am out in the operation over the coming weeks, please take the time to talk with me about these results. In the interim, please do not hesitate to call with any questions about the survey or drop me an e-mail at [jsamuel@iamdl142.org](mailto:jsamuel@iamdl142.org).

Sincerely and fraternally,

James M. Samuel  
GENERAL CHAIRPERSON

JMS/slb
