US AIRWAYS MECHANICAL & RELATED NEGOTIATIONS UPDATE

The Mechanic and Related negotiating committee met with the Company the week of November 14, 2011 in Tempe, Arizona. As discussed in the last update, the Maintenance Planners Sub-Committee was present for the first day of negotiations. This sub-committee is made up of Tonja Pellerin - CLT, Lori Painter - PIT and Nazia Taylor - PHX from the Union. Steve Heriger and Kevin West from PIT are representing the company. In this initial meeting with the sub-committee, they were given direction as to their role in these negotiations. The company committed the resources to this sub-committee as needed to accomplish their task. They will report directly to the negotiations committee with their recommendations on non-economic issues of the collective bargaining agreement as they relate to the Maintenance Planners.

Negotiations continued with non-economic issues in Articles 7, 8, 10, 14, and 17 with positive progress in these areas. Discussion also took place on incorporating many of the Letter of Agreements into the Collective Bargaining Agreement. It was understood that any letters incorporated into the agreement would not eliminate the letter or change its intent. Your committee notified the company of our intent to move into economic issues as related to the Collective Bargaining Agreement in our next meeting.

Future meetings are scheduled for the week of February 27 through March 3, 2012 and the week of April 16, 2012.

As these negotiations move forward, your continued support and Solidarity will be essential for continued progress.

Fraternally,

Tom Higginbotham
