

Education Committee:

The members of the Education Committee have adopted the following recommendations to be accomplished by the next Convention of this District.

1. Develop a list of Educators within Local Lodges of District 142.
2. To develop annually a 12-month plan for educating members, stewards, and Local Lodge executive boards.
3. Develop a program to evaluate the effectiveness of the training provided by District and Local Lodge Educators. This program will focus on the feedback of the membership and follow-up recommendations provided by Local Lodge and District Leaders.
4. Create a contact list of Local Lodge Executive Boards.
5. Provide for the future of this great union by cultivating the next generation of union leaders, by recognizing the strengths of individual members and providing the training necessary to accomplish the successful transfer of leadership.
6. The committee will develop a list of resources available for each Local Lodge thereby allowing the Local Lodges to “Pick and Choose” the programs that will work best for their members.
