TENTATIVE AGREEMENT RATIFIED

Sisters and Brothers:

We are proud to announce the ratification of the new 4 year agreement between CommutAir and their flight attendants represented by the International Association of Machinists and Aerospace Workers. This new agreement provides an immediate average wage increase of 10% and a signing bonus. It improves vacation and sick leave and places a control on medical insurance contributions paid by the members over the life of the agreement.

Without the support and solidarity of the membership these improvements would not have been possible.

In Solidarity,

Sara González
GENERAL CHAIR
